

Career Essay

Assignment:

Now that you have spent some time investigating your personality type, interests, and possible career paths, write a 2-3 page compare/contrast essay about two of the careers you chose at the bottom of the Career Cruising paper. This essay should include a well developed introduction, paragraphs of detail on each career, and a conclusion. Discuss all aspects of each career including a detailed description, working conditions, education required, possibly salary. Also describe why you would enjoy each career, what specific talents and personality traits you have that would help you be successful with them, and compare and contrast them with each other.

Be sure to use proper MLA formatting. Submit via web lockers.
